UNIVERSITY PROPERTIES OF FINLAND LTD

LINNANMAAN CAMPUS
NOTICE OF THE CONSTRUCTION SITE AT THE KIRJATORI YARD

The construction site in the northern part of the region causes changes by blocking some of the entrances from Kirjatori yard to Väylä corridor starting from Monday 1.6.2020.

The yard’s repair work will improve the yard’s accessibility, usability and maintainability. The repair work will be carried out in two stages in accordance with Annex 1, so that one or more entrances to the Väylä corridor will remain in the yard at all times during the work. The Pegasus Library’s Book Return Box in B1 entrance is also normally in use during the semester. Work in first stage will be carried out during weeks 23-35/2020 and second one during weeks 34-37/2020. The central area of the yard and the entrances B1 and C are in use at the beginning of the autumn semester.

The main contractor of the project, JP-Matic Ltd, is responsible for the temporary traffic arrangements in the area with traffic signs. Work areas are isolated from the rest of the yard area and passageways. Access to or across the construction site area is strictly prohibited for safety reasons.

We apologize for any inconvenience caused by the work and special arrangements.
